Professional Summary

Mobile developer with 9+ years in software development, including 5+ years building Android and iOS apps with Flutter and React Native. Launched a React Native membership app on Google Play and the App Store, and took full ownership of a Flutter Kitchen Display System, the SME Foresight admin dashboard (Flutter Web), and the FCS web application (React.js). Experienced in responsive UI, push notifications (FCM), Dart null safety, REST APIs, Firebase, clean architecture, and state management (Riverpod, Provider, GetX, Redux). Mentored 2 junior developers.

Technical Skills

- **Mobile:** Flutter, Dart (null safety), React Native, JavaScript, TypeScript, responsive UI, Material Components, Android, iOS
- **Architecture and state management:** Clean Architecture, MVVM, Repository Pattern, Riverpod, Provider, GetX, Redux, GoRouter (navigation)
- **Firebase:** Authentication, Firestore, Cloud Messaging (FCM) for push notifications, Remote Config, Analytics
- **APIs and data:** REST APIs, JSON, Dio, SQLite (Drift), Firestore, MongoDB, MySQL
- **Release and distribution:** Google Play Console, App Store Connect, TestFlight
- **Web:** React.js, React Hooks, Next.js, Flutter Web, HTML5, CSS3, Tailwind CSS
- **Tools:** Git, GitHub, GitHub Actions (CI/CD), Vercel, Android Studio, Xcode, VS Code, Postman, Figma
- **Practices:** Agile/Scrum, code review, debugging, production support, mentoring, technical documentation
- **AI-assisted development:** GitHub Copilot, Claude (daily use, with manual review and testing of generated code)

Professional Experience

Mobile Developer (Flutter) | Freelance, Myanmar | Jan 2026 – Jun 2026 (6-month contract)

- Took full ownership of a real-time Kitchen Display System built with Flutter and Firebase, from development through ongoing maintenance.
- Implemented real-time order synchronization and status management across devices.
- Built configurable item display modes and per-item waiting-time alerts so staff can prioritize delayed items.
- Improved usability and reliability based on operational feedback.

Mobile Developer (React Native, Flutter) | We Success Co., Ltd, Thailand | Dec 2024 – Dec 2025 (1-year contract)

- Designed and developed a React Native membership system for agents and customers, covering product browsing, ordering, and payment workflows.
- Launched the React Native app on Google Play and the Apple App Store, owning the release process across Android and iOS.
- Maintained and supported production Flutter apps on Android and iOS, resolving issues and delivering ongoing improvements.
- Worked with cross-functional teams to clarify requirements and deliver features through release.

Senior Mobile Developer (Flutter) | Oriental Vigour Pre Ltd, Myanmar | Nov 2023 – Nov 2024

- Designed, developed, and maintained Android and iOS apps with Flutter, Dart, Firebase, and GetX, including the Myanmar Travel App (Smoove) and Showlike.
- Developed features for Showlike, an entertainment platform where users discover and watch documentaries, series, and movies in one place, with digital content and online ticket purchasing.
- Integrated REST APIs and Google Maps into the Myanmar Travel App (Smoove).
- Provided technical guidance and code-quality support to 2 junior mobile developers.
- Resolved issues raised in QA testing and leader feedback, improving stability and release readiness.

Mobile Developer (Flutter) | Super Seven Stars International, Myanmar | Oct 2022 – Oct 2023

- Developed and maintained the Grocery Fresh Store e-commerce app for Android and iOS.
- Gave coding guidance to mobile team members and helped keep code quality consistent.
- Implemented production fixes and UX improvements; managed TestFlight beta releases and technical documentation.

Analyst Developer (Flutter, React.js) | Mokkon24 (Start-up), Myanmar | Jul 2018 – Mar 2022

- Took a technical leadership role in the mobile team: mentored 2 junior developers and conducted code reviews.
- Developed features for enterprise apps including Foresight Petrol Station Management, FCS Logistics, and Petrol-K Loyalty.
- Delivered POS, inventory, customer management, logistics tracking, and loyalty features, integrating REST APIs and Firebase services.
- Took full ownership of the SME Foresight admin dashboard, built with Flutter Web, and of the FCS web application, including its admin panel and users' package route tracking, built with React.js, Redux, and Redux Thunk.
- Worked directly with clients to turn business requirements into practical technical solutions.

Web and Mobile Developer | Brilliant Sky Group, Myanmar | Apr 2016 – Apr 2018

- Developed and maintained web and mobile apps, with REST API integration and database-driven features.

Junior Web Developer | Active Agent Group, Myanmar | May 2014 – Oct 2015

- Developed web applications and supported data migration; contributed to a Japan Red Cross earthquake safety training game built with Unity.

Projects

Personal Portfolio Website | Next.js, TypeScript, Tailwind CSS, GitHub Actions, Vercel | 2026

- Designed and built a responsive portfolio showcasing 7 mobile and web projects, with CI/CD through GitHub Actions and hosting on Vercel.
- Live site: phyo-thandar.vercel.app

J Donuts (Technical Assessment) | Flutter, Riverpod, SQLite (Drift)

- Sample Flutter app using Riverpod for state management and Drift (SQLite) for local data storage. Code on GitHub: github.com/phyotd

Education

Bachelor of Computer Science | University of Computer Studies Yangon, Myanmar | Graduated 2014
